

Arkansas Trauma Rehabilitation Conference

Schedule of Events and Speakers

Day One: Thursday, May 18, 2017

7:30 a.m. to 8:15 a.m. Registration, Sign-In, and Continental Breakfast (provided)

8:15 a.m. to 8:30 a.m. Welcome, Announcements, Information, and Updates

8:30 a.m. to 9:45 a.m. The Art of Failing: Seminal Tips for the Professionals

Keynote Presenter: Lester Butt, Ph.D., is the Senior Rehabilitation Psychologist at Craig Hospital in Englewood, CO. He received his Ph.D. from George Washington University.

This presentation explores essential strategies for rehabilitation professionals to ensure new directions for poor outcomes. Multiple levels for collapse and dysfunction will be presented. These discussions will range from the hospital system to the care team and individual provider. Tips to deal with unconditional failure will be provided within each of these domains. **Learning Outcomes:** ♦ Explain how self-awareness can augment one's clinical work. ♦ Describe how teamwork can be enhanced.

9:45 a.m. to 10:45 a.m. Too Tired To Care: Coping With Compassion Fatigue

Kay Hardin, D.Min., is the Senior Staff Chaplain at Baptist Health Medical Center in North Little Rock, AR. She holds a Doctor of Ministry from Asbury Theological Seminary, Wilmore, KY.

Compassion fatigue afflicts most all professional and personal caregivers in clinical and non-clinical settings. This presentation will help to identify causes, symptoms, and solutions for this exhaustive mental and emotional pandemic among healthcare professionals. **Learning Outcomes:** ♦ Identify and explain compassion fatigue triggers and symptoms. ♦ Identify and define one's own personal level of compassion fatigue and be able to choose from one of the five options presented for relief, rest, and renewal.

10:45 a.m. to 11:15 a.m. Break and Exhibitors

11:15 a.m. to 12:15 p.m. Basic Overview of SSI, SSDI, Medicaid, Special Needs Trusts and ABLE Accounts

Raymon Harvey is an attorney in Little Rock, AR., who specializes in elder law, special needs planning, and estate planning. He has over 40 years experience working with aging and disability issues.

This presentation will discuss the difference between Social Security Disability and Supplemental Security Income, as well as Medicaid eligibility criteria as it relates to long term care, and how Special Needs Trust and the Able Act help improve quality of life.

Learning Outcomes: ♦ Describe SSDI, SSI, and Medicaid. ♦ Explain the difference and uses of Special Needs Trusts and ABLE Accounts.

Arkansas Trauma Rehabilitation Conference

Schedule of Events and Speakers

Day One: Thursday, May 18, 2017 (continued)

12:15 p.m. to 1:30 p.m. Lunch (provided) and Exhibitor Showcase

1:30 p.m. to 2:45 p.m. Life After Traumatic Limb Amputation

Mike Horton is a Certified Prosthetics Orthotist at Horton Orthotics and Prosthetics in Little Rock, AR, with more than 20 years experience.

Chris Madison is an Attorney for the City of Bryant, AR. Has been a person with an amputation since the age of 10, and is an amateur athlete who races in triathlon and iron man competitions.

This presentation will explore the relationship between the prosthetist and person with an amputation. **Learning Outcomes:** ♦ Explain the life-long need and progression of prosthetics for a person with an amputation. ♦ Describe the one-on-one relationship of the prosthetist to a person with an amputation.

2:45 p.m. to 3:15 p.m. Break (refreshments provided) and Exhibitors

3:15 p.m. to 4:30 p.m. Pulmonary Issues in Spinal Cord Injuries

Norma Rivera, RRT, RCP, is a recently retired Respiratory Educator at the Shepherd Center in Atlanta, GA, with over 48 years of experience in the field of respiratory therapy.

This presentation will discuss techniques for ventilator management and weaning strategies, as well as interventions for the reduction of associated complications in the Spinal Cord Injury (SCI) population. **Learning Outcomes:** ♦ Discuss current best practices for ventilator management and weaning related to SCI population. ♦ Describe two strategies to reduce complications associated with ventilator management in SCI population.

4:30 p.m. End of day one's program. Conference resumes Friday morning, May 19.

Conference Planning Committee

Kristen Alexander, MPS, MPH, Health Educator, Arkansas Trauma Rehabilitation Program

Diane Powell, BSN, RN, Staff Educator, Baptist Health

Karolyn Thompson, MS, CCC/SLP, CBIS, Market Director Rehabilitation Services, CHI St. Vincent

Arkansas Trauma Rehabilitation Conference

Schedule of Events and Speakers

Day Two: Friday, May 19, 2017

7:30 a.m. to 8:15 a.m. Sign-In and Breakfast (provided)

8:15 a.m. to 8:30 a.m. Welcome, Announcements, Information, and Updates

8:30 a.m. to 9:45 a.m. Neural Plasticity: Implications for Rehabilitation Following Traumatic Brain Injury

Dr. Frank Lewis, Ph.D., is the National Director of Clinical Outcome Services for NeuroRestorative. He has over 25 years of experience in the field of brain injury as an educator, researcher, and administrator. He is a certified Brain Injury Specialist Trainer, author of 20 peer-reviewed publications, and is an adjunct faculty member of the Georgia Regents University Psychology Department.

This presentation will discuss the conditions that promote neural plasticity, which, when incorporated into rehabilitative practice, can enhance recovery following brain injury.

Learning Outcomes: ◆ Identify three benefits of neural plasticity to your clinical practice.
◆ Identify three tenants of neural plasticity.

9:45 a.m. to 10:45 p.m. The Continuum of Care for Burn Injuries

Anna Nicole Rinewalt, M.D., is a Burn Surgeon at Arkansas Children's Hospital Burn Center in Little Rock, AR.

This presentation will focus on the care of the thermally injured patient in the emergency department from the "walking wounded" to the critically injured patient. **Learning**

Outcomes: ◆ Discuss treatments for various thermal injuries according to depth and severity. ◆ Explain the criteria for referral to burn centers for burn surgeon consultation.

10:45 a.m. to 11:15 a.m. Break and Exhibitors

11:15 a.m. to 12:30 p.m. Refusing Needed Treatment: Ethical Issues in Rehabilitation Medicine

Chris Hackler, Ph.D., is an Emeritus Professor, Division of Medical Humanities, UAMS College of Medicine. He has published two books, numerous articles, and lectured widely on medical ethics.

This presentation will explore the limits, if any, of a patient's right to refuse rehabilitation that the healthcare professional believes would be successful. **Learning Outcomes:** ◆ List the elements of valid informed consent to medical treatment. ◆ Identify appropriate surrogates for incapacitated patients.

12:30 p.m. to 12:45 p.m. Evaluations and Post-Test.

12:45 p.m. Conference adjourns.

Arkansas Trauma Rehabilitation Conference

Conference Providers and Planners

Thursday, May 18, and Friday, May 19, 2017

Arkansas Trauma Rehabilitation Program

1501 N. University Ave., Suite 400, Little Rock, AR 72207
(501) 683-0537, <http://atrp.ar.gov>

Through educational and resource development initiatives, Arkansas Trauma Rehabilitation Program (ATRP) works to increase access to comprehensive, cutting-edge rehabilitation care and facilitates community reintegration for Arkansans who have sustained traumatic injuries.

Baptist Health Rehabilitation Institute

9601 Interstate 630, Little Rock, AR 72205
(501) 202-1765, www.baptist-health.com

Baptist Health Rehabilitation Institute is Arkansas' largest physical medicine and rehabilitation hospital. Located on the Baptist Health Medical Center-Little Rock campus, the Rehab Institute allows convenient, 24-hour access to specialized services such as diagnostic imaging, laboratory and pharmacy as well as specially trained physical medicine and rehabilitation physicians and other specialist medical professionals and therapists.

CHI St. Vincent

2 St. Vincent Circle, Little Rock, AR 72205
(501) 552-3000, www.chistvincent.com

CHI St. Vincent, founded in 1888, is the largest integrated and community-based physician organization in Arkansas. The system includes a network of 300 primary care and specialty physicians, a home health agency, a joint venture inpatient rehabilitation facility, and affiliations with more than 1,000 physicians.

NeuroRestorative Timber Ridge

15000 Timber Ridge Lane, Benton, AR 72019
(800) 743-6802, www.neurorestorative.com

NeuroRestorative Timber Ridge offers a continuum of community-based, inpatient treatment and supported living programs for children and adults with brain injury and other neurological challenges. Timber Ridge provides a peaceful, rural environment well suited to post-acute brain injury rehabilitation. The continuum of progressive and structured programs empower participants to improve physical abilities and develop the social, emotional, and behavioral management skills to successfully transition back to home, work, school, or another less-structured program setting.

Shepherd Center

2020 Peachtree Road NW, Atlanta, GA 30309
(404) 352-2020, www.shepherd.org

Shepherd Center, located in Atlanta, Georgia, is a private, not-for-profit hospital specializing in medical treatment, research and rehabilitation for people with spinal cord injury and brain injury.

TRIUMPH Call Center

4301 W. Markham Street, Slot 519, Little Rock, AR 72205
(501) 526-7656, <http://pmr.uams.edu/clinics-physicians/telemedicine/>

The TRIUMPH Call Center is a 24-hours-a-day, 7-days-a-week resource provided by UAMS Department of Physical Medicine and Rehabilitation, UAMS Center for Distance Health, with support from Arkansas Trauma Rehabilitation Program, that serves Arkansans with spinal cord and brain injuries through telemedicine consultations, provider education, emergency department services, and call center services. With the TRIUMPH Call Center, providers around the state have access to an immediate phone-based or interactive, HD video-based provider-to-provider consultation at any time.

Arkansas Trauma Rehabilitation Conference

May 18 and 19, 2017

Exhibitors

A&A Home Health Equipment, 17 Collins Industrial Place, Suite A, North Little Rock, AR, 72113, (501) 712-4044, www.aahhe.com

A&A Home Health Equipment specializes in customized rehab, specialized power mobility, and provides services to respiratory patients.

Accessibility Specialties, Inc., 1920 John Barrow Road, Little Rock, AR 72204, (501) 312-1000, www.accessibilityspecialties.com

ASI is a total mobility provider, offering manual and power wheelchairs, cushions, vehicle conversions, and home modifications.

Arkansas ICAN (Increasing Capabilities Access Network), 525 W. Capitol, Little Rock, AR 72201, (501) 666-8868, www.ar-ican.org

ICAN (Increasing Capabilities Access Network) is Arkansas' statewide assistive technology program designed to make technology available and accessible for everyone who needs it. Assistive Technology (AT) is any kind of device or tool that helps people learn, work, communicate and live more independently. ICAN offers a number of services to help Arkansans of all ages find the AT they need for home, school, work and getting around in the community.

Arkansas Rehabilitation Services, 900 West 7th Street, Little Rock, AR 72201, (501) 686-2800, <http://ace.arkansas.gov>

The mission of ARS is to assist persons with disabilities so they are empowered to become employed. We help individuals overcome obstacles by focusing on ability rather than disability.

Arkansas Relay Service, 900 S. Shackelford Road, Suite 300, Little Rock, AR 72211, www.arkansasrelay.com

Arkansas Relay Service provides free telephone services for individuals who are deaf, hard of hearing, and/or speech impaired.

Baylor Institute for Rehabilitation, 909 North Washington Avenue, Dallas, TX 75246, www.BaylorHealth.com/Rehab

Baylor Institute for Rehabilitation helps people overcome serious disabilities and return to full, productive lives. Baylor Rehab's interdisciplinary clinical teams partner with patients and their families to design and implement treatment plans to achieve each patient's unique goals. Baylor Rehab has been designated by the National Institute on Disability and Rehabilitation Research as a model system for the treatment and care of patients with traumatic brain injuries.

Arkansas Trauma Rehabilitation Conference

May 18 and 19, 2017

Exhibitors, continued

Be Extraordinary, 310 Towson Avenue, Fort Smith, AR 72901, (479) 310-5483,
www.be-x.org

Be Extraordinary's mission is to provide the quality of life of people with severe disabilities through the effective use of technology to achieve their live goals.

Choices In Living, DHS-Division of Adult and Aging Services, PO Box 1437, Slot S-530,
Little Rock, AR 72201, (501) 320-6012, <http://daas.ar.gov>

The Choices in Living Resource Center is an Aging and Disability Resource Center (ADRC). We provide helpful information about long-term services and supports in Arkansas. Trained Counselors are here to help you sort through the many options that are available and to assist you in making informed decisions.

Coloplast Continance Care, 1601 West River Road North, Minneapolis, MN, 55441, (901) 894-7982,
www.coloplast.com

Coloplast develops products that make life easier for people with very personal medical conditions, and creates solutions that are sensitive to intimate healthcare needs. Coloplast specializes in the research, development, and production of discreet hydrophilic, intermittent catheters that are travel size and easy to use.

Cornerstone Hospital Little Rock, #2 St. Vincent Circle, Little Rock, AR 72205, (501) 265-0600,
www.chghospitals.com

Cornerstone Hospital Little Rock is a long term acute care hospital (LTACH) that is designed to provide extended medical and rehabilitation care to patients who are clinically complex or have multiple acute or chronic conditions.

Disability Rights Arkansas, Inc., 400 West Capitol Ave., Suite 1200, Little Rock, AR
72201, (800) 482-1174, www.disabilityrightsar.org

Disability Rights Arkansas (DRA) is the independent, private, non-profit organization designated by the governor of Arkansas to implement the federally funded and authorized protection and advocacy systems throughout the state. DRA services provide information and referral, short-term assistance, selected individual and legal representation, systemic advocacy, monitoring, and training. DRA services are provided free of charge.

Horton Orthotics and Prosthetics, 5220 West 12th Street, Little Rock, AR 72204,
(501) 663-2908, www.hortosoandp.com

Horton's Orthotics & Prosthetics provides a lifetime of supportive, individualized patient care in the following service areas: Orthotics, Prosthetics, Pedorthics, Pediatrics, Mastectomy, Lymphedema, and SCOKJ.

Arkansas Trauma Rehabilitation Conference

May 18 and 19, 2017

Exhibitors, continued

NuMotion, 1523 S. Bowman Road, Suite A, Little Rock, AR 72211, (501) 221-2258,
www.numotion.com

NuMotion is a complex rehabilitation provider that is committed to serving the lifelong needs of its customers through individualized health and mobility solutions.

Permobil, 300 Duke Drive, Lebanon, TN, 37090, (800) 376-0925,
www.permobilus.com

Permobil was founded with an idea: that what people can achieve should never be a question of ability, and we have the technology to make this dream possible. This belief is the very foundation of each of our brands – Permobil, TiLite and ROHO.

Quantum Rehab, 182 Susquehanna Avenue, Exeter, PA 18643, (918) 776-7586,
www.quantumrehab.com

Quantum Rehab® is the premier global leader in the design and manufacture of high-performance, aesthetically pleasing, user-focused complex rehab products. These include power wheelchairs and power positioning seating systems to meet the widest range of needs.

Snell Prosthetic and Orthotic Laboratory, 525 N. University Avenue, Little Rock, AR 72205, (501) 664-2624, www.snellpando.com

Snell Prosthetic and Orthotic Laboratory has been providing quality artificial limbs and braces to the people of Arkansas since 1911. They continue to be a leader in the field, offering the latest in technology and the best in care.

Sunrise Medical, 6747 East 66th Street, Tulsa, OK, 74133, (918) 740-3761,
www.sunrisemedical.com

Sunrise Medical is a world leader in the development, design, manufacture and distribution of manual wheelchairs, power wheelchairs, motorized scooters and both standard and customized seating and positioning systems.

Telecommunications Assistance Program (TAP), 525 W. Capitol Ave, PO Box 3781, Little Rock, AR 72203. (501) 686-9693, <http://ace.arkansas.gov>

TAP (Telecommunications Assistance Program) provides free telephone equipment to eligible Arkansans who are deaf, hard of hearing, blind, or who have a speech, visual, mobility or cognitive impairment that prevents them from using a standard telephone. TAP is a program within Arkansas Rehabilitation Services that removes the barriers to telecommunication access through the provision of accessible communication technology.
